Product Description

This book is the third in Evro's multi-volume, decade-by-decade series covering the entire history of Formula 1 through its teams and cars. This instalment examines the 1980s, when the sport moved into its spectacular turbo era, first with Renault, Ferrari and BMW-powered Brabham, then with sustained periods of success for McLaren with Porsche-made TAG engines and Williams with Honda power. After the last win for the evergreen Ford Cosworth DFV in 1983, turbos prevailed until regulation change for 1989 brought back normally aspirated engines, now of 3.5 litres. Besides Formula 1's high achievers, this book also covers the entire supporting cast, where much curiosity lies in discovering the travails of obscure and unsuccessful cars. This wide-ranging, colourful and authoritative book will be treasured by all Formula 1 fans

Product Description

David Tremayne's acclaimed biography of Jochen Rindt was first published in 2010 and now, ahead of the 50th anniversary of the Austrian's death, Evro is reviving the book in paperback form. Rindt was widely acknowledged as the fastest man in Formula 1 by the time he reached his peak in 1970, when he tragically lost his life at Monza in Italy, four races before the end of the season. Such was his pre-eminence that year that no rival could overhaul his points total and he became the sport's only posthumous World Champion. As his close friend Jackie Stewart observed in this book's foreword, 'David Tremayne is a wonderful writer who has done Jochen great justice in the words that he has chosen to depict a remarkable man and a remarkable career.'

In many respects it is a book unlike many others. It is an individual, as all good books should be. It is quirky, eclectic, eccentric even, but in a world intent on reproducing that which has already been regurgitated I personally felt the need for something a bit more idiosyncratic, I can only hope that you agree! - Simon Owen

A well known artist specialising in racing car subjects, the late Simon Owen's detailed, expertly executed work conveys the life, the vibrancy, the essence and passion of motorsports and racing cars, like no other. Simon's work is a visual feast for lovers of automotive art and motorsport. Over the last few years, Simon had worked on developing a series of stunningly detailed computer-generated digital images, focussing on individual racing cars and their liveries. Seventy-seven of these images have been compiled to create this extraordinary book, and each is presented with a relevant quote from a legend of the motor racing world. Along with these beautiful and unique artworks, this book represents a chance to gain a rare peek into the artist's working methods, revealing some of his developmental work and showing how the digital images were constructed.

Chronicling both the changing face of the teams and their cars, from Lotus and Cooper to Williams and Ferrari, and of course the legendary drivers who have pushed their machines and themselves to the limits, these incredible photographs are from the archive of Bernard Cahier and his son, Paul- Henri who have been trackside capturing the drama of the Formula One Championships since the 1950s. Brought to life by Formula One correspondent Maurice Hamilton, they tell the story behind the infamous circuits that have played host to intense rivalries which have produced moments of tragedy and triumph that read like a film script.
