Categories: [EDUCATION](#), [EDUCATION](#), [EDUCATION](#), [Higher & further education, tertiary education](#), [PRIMARY / JUNIOR SCHOOLS](#), [SCHOOLS](#), [SOCIAL SCIENCES](#), [Teacher training](#), [TEACHING SKILLS & TECHNIQUES](#)

Product Description

As pressures of standardised testing and the focus on English and maths impact on teaching time, how can teachers ensure that the curriculum truly is broad and balanced? How do we ensure that we are educating the whole child? This book provides both an exploration of the current challenges in the curriculum as well as practical guidance on how to tackle them. This book is needed to contextualise the current situation and to inform and inspire today's teachers to teach across the curriculum.

The EAL Teaching Book: Promoting Success for Multilingual Learners (Primary Teaching Now)

Product Description

This book is a complete guide to understanding, learning from and teaching bilingual and EAL children in schools. It begins by asking 'who are EAL learners' and challenges some of the misconceptions about this group. It goes on to examine language in depth, providing focused theory to help teachers and trainees better understand the wider context of children's needs. This theory is supported by a wealth of information on practical teaching strategies and resources. It also covers planning across the curriculum for EAL, assessing EAL and bilingual learners and classroom organisation. New to this second edition is a chapter on using home languages and cultures in learning as well many new case studies from practising teachers offering insight and knowledge on teaching this particular group.

Product Description

EARLY CHILDHOOD EXPERIENCE IN THE LANGUAGE ARTS: EARLY LITERACY, International Edition helps readers become knowledgeable companions to young children as they explore and share literature and language experiences through interesting, developmentally appropriate activities. To achieve this goal, this contemporary reference encourages reflective thinking, allows for practice of skills, and inspires the collection of ideas for future use. It thoroughly explores the primary interrelated areas of language arts—listening, speaking, reading, and writing—as well as the closely tied area of visual literacy, which is increasingly important given children's frequent interactions with visual technology. While painting a comprehensive picture of the most important aspects of teaching early literacy, the book also incorporates valuable information that teachers can take directly into practice. Readers learn classroom activities involving stories, poems, finger plays, and puppetry. They also learn curriculum for infants, toddlers, and preschoolers, with discussions of theory illuminated by practical how-to suggestions. Cultural diversity is addressed, as are program-planning ideas for English language learners and special-needs children.
