Product Description

A vital, engaging, and hugely enjoyable guide to poetry, from ancient times to the present, by one of our greatest champions of literature--named one of the Best Books of 2020 by The Times and Sunday Times [A] fizzing, exhilarating book. -Sebastian Faulks, Sunday Times Delightful.' -New York Times Book Review What is poetry? If music is sound organized in a particular way, poetry is a way of organizing language. It is language made special so that it will be remembered and valued. It does not always work-over the centuries countless thousands of poems have been forgotten. But this Little History is about some that have not. John Carey tells the stories behind the world's greatest poems, from the oldest surviving one written nearly four thousand years ago to those being written today. Carey looks at poets whose works shape our views of the world, such as Dante, Chaucer, Shakespeare, Whitman, and Yeats. He also looks at more recent poets, like Derek Walcott, Marianne Moore, and Maya Angelou, who have started to question what makes a poem great in the first place. For readers both young and old, this little history shines a light for readers on the richness of the world's poems-and the elusive quality that makes them all the more enticing.
