Product Description

This graduate-level text on rehabilitation and mental health counseling disseminates foundational knowledge of assessment principles and processes with a focus on clinical application. Written by recognized leaders in rehabilitation and mental health, it is the only book to use the World Health Organization's International Classification of Disability, Functioning, and Health framework to integrate assessment tools and techniques addressing practice with varied populations and settings. Chapters-written by leading practitioners with specialized knowledge-focus on specific populations and service delivery settings. The book features a variety of learning tools to foster critical thinking, including learning objectives and case examples highlighting important principles and applications. Sample reports and templates further reinforce understanding of specific applications. A robust instructor package offers PowerPoints, discussion questions, a test bank, and activities. Purchase includes access to the ebook for use on most mobile devices or computers. Key Features: Provides the only comprehensive view of assessment in rehabilitation and mental health using the ICF framework Integrates assessment tools and techniques for both rehabilitation and mental health in diverse settings Written by recognized leaders in the field of rehabilitation and mental health Includes learning objectives and case examples highlighting important principles and applications Presents sample report templates and completed reports to strengthen integration and presentation of test results Offers a robust instructor package with PowerPoints, discussion questions, test bank, and activities
