Product Description

Since the book's first publication in 1988, Alain Badiou's *Being and Event* has established itself as one of the most important and controversial works in contemporary philosophy and its author as one of the most influential thinkers of our time. *Being and Event* is a comprehensive statement of Badiou's philosophical project and sees him recast the European philosophical tradition from Plato onwards, via a series of analyses of such key figures as Descartes, Spinoza, Leibniz, Hegel, Rousseau, and Lacan. He thus develops the basis for a history of philosophy rivalling those of Heidegger and Deleuze in its depth. Now publishing in the Bloomsbury Revelations series to mark 25 years since the book's first publication in French, *Being and Event* is an essential read for anyone interested in contemporary thought.
